The U.S. Department of Agriculture (USDA) prohibits discrimination in all its programs and activities on the basis of race, color, national origin, gender, religion, age, disability, political beliefs, sexual orientation, and marital or family status. (Not all prohibited bases apply to all programs.) Persons with disabilities who require alternative means for communication of program information (Braille, large print, audiotape, etc.) should contact USDA's TARGET Center at (202) 720-2600 (voice and TDD). To file a complaint of discrimination, write USDA, Director, Office of Civil Rights, Room 325-W, Whitten Building, 1400 Independence Avenue, SW, Washington, D.C. 20250-9410 or call (202) 720-5964 (voice or TDD). USDA is an equal opportunity provider and employer.

8. If Item 7D "National" is checked, provide the national average annual price for the most recent marketing year and the 5 preceding marketing years. If Item 7D "State(s)" is checked to indicate that the petition is for an impacted area, provide the relevant average price for the most recent marketing year and the 5 preceding years, and specify the months being averaged if the price is for less than 12 months (seasonal price).

(NOTE: National price data is available for many raw agricultural commodities from the Department's National Agricultural Statistical Service (NASS) at: [www.usda.gov/nass](http://www.usda.gov/nass).)

	\$ 3.77/lb.	\$ 1.72/lb.	\$ 3.51/lb.	\$ 4.54/lb.	\$ 5.15/lb.

9. Basis for request for adjustment assistance. Please explain or attach any documents, which show how increased imports have affected the national price of your product during the most recent marketing year. In your description include any other factors which may also have contributed to lower producer prices.

The Florida longan industry experienced record low prices for Florida grown product during the 2003 season. Growers reported receiving approximately \$1.24/lb for their 2003 crop, compared to the previous five year average price of \$3.74/lb. (1998 = \$4.75/lb, 1999 = \$4.54, 2000 = \$3.51, 2001 = \$1.72, 2002 = \$3.77).

We believe the major influence for this sharp decline in price in the market place has been the increase in importation of longans from Mexico and Taiwan. According to the USDA/SITC records for lychees and longans (HTS - 20089935), from the 2002 season to the 2003 season there was an increase of 157% in imported Mexican lychees and longans, and an increase of 141% in lychees and longans from Taiwan. See attached Sheet # 1. [The Harmonized Tariff Schedule does not differentiate between lychees and longans in their records. Florida lychee growers reported similar price declines for the 2003 season. A FAS-930 for Florida lychees is being filed.]

Generally, the price quoted for the 2003 season for imported longan was significantly lower than for Florida produced fruit, which made it difficult to sell and market domestic fruit against a lower priced import. Homestead, FL packer Michael Chow of Double Green Farms, Homestead, FL phone (305) 219 4671 reported that longan prices were \$2.00 per pound in Los Angeles, CA FOB from Mainland China during 2003.

The Trade Adjustment Act, TAA, requires that a group of individuals who petition the Foreign Agricultural Service, FAS, for compensation must prove that "the national average price in the most recent marketing year for the commodity produced by the group is equal to or less than 80% of the national average price in the preceeding marketing years, and that the increased imports of that commodity contributed importantly to the decline in prices". We believe that these requirements have been met, and therefore submit this petition.
